

Returning to the Source

Returning to the Source is a 16 day Advanced Shamanic Training offered by The Centre for Human Transformation.

It is guided by **Deva Daricha** and **Shivam Rachana** who are the Executive Directors and Principal Teachers of CHT.

It is a skill based program, providing a systematic descent into the various realms of the unconscious;

the personal,

cultural,

archetypal and

cosmic layers of these realms of existence.

Participants learn to voyage into highly altered states of consciousness and master the skills to inhabit extensive shamanic realms, efficiently, safely and enjoyably.

The program is designed in a 64 part sequence (one for each I Ching hexagram, and one for each sequence of our DNA) that step by step deepen into the Mysteries of our existence

On the way you will learn

- to alter your personal experience of time,
- to heal your body rapidly,
- to establish connections with internal teachers who can teach any skill you wish to learn,
- to guide others into profoundly altered states of awareness
- to join others in those states and to navigate into places of

profound beauty, enjoyment, wonder and awe.

Imagine being able to access 'talking in tongues' without having to adopt the belief system that usually goes with it!

You will be a visionary anthropologist visiting other star systems in our galaxy!

You will have the possibility of walking through the doorway into another dimension, having the skills to enter and exit safely.

The process is designed to unveil the nature of YOUR consciousness to YOURSELF.

You learn through your **own** experience, not through someone else telling you.

There will be times of **profound initiations** into the ancient wisdom and mystery traditions.

In addition to being profound,

engaging,

challenging,

life changing,

thought provoking,

entertaining,

and enabling you to think and see things in a new way,

Returning to the Source is fun!

Past participants have included business analysts and corporate trainers, doctors and a Professor of Medicine, teachers ,a property developer, shamanic apprentices, public

servants, midwives, dancers, a film script writer, psychiatric nurse, landscape gardener, sailor, rebirthers and therapists, cabinet maker, mothers, carpenters, social workers and market gardener.

Returning to the Source teaches skills that will stay with you for the rest of your life in a concentrated, innovative and enjoyable way.
