## *The Path of Sacred Sexuality*

An Introduction to Ancient and  
Modern Tantric Knowledge

[www.humantransformation.com.au](http://www.humantransformation.com.au)

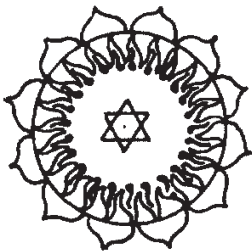

## *What is Tantra?*

Tantra is the divine science of sexual energy. Many ancient cultures have studied sexual energy and its relation to spirituality. From this study emerged a specific science of the evolution of consciousness and the systematic study of the Kundalini energy; the divine energy of the universe that expresses itself in human beings as sexuality.

## *Why should I study Tantra?*

For most humans sexuality is a source of both profound wonder and profound confusion. Caught between our biological desires and social conditioning we are adrift in a sea of contradictions and incompleteness. The practice of Tantra restores human loving to its central, noble, spiritual place in human existence.

## *What can I expect?*

Previous participants in the program have reported huge changes in the nature and quality of their relationships and greatly increased enjoyment, bliss and understanding of the role of sexual energy in their lives.

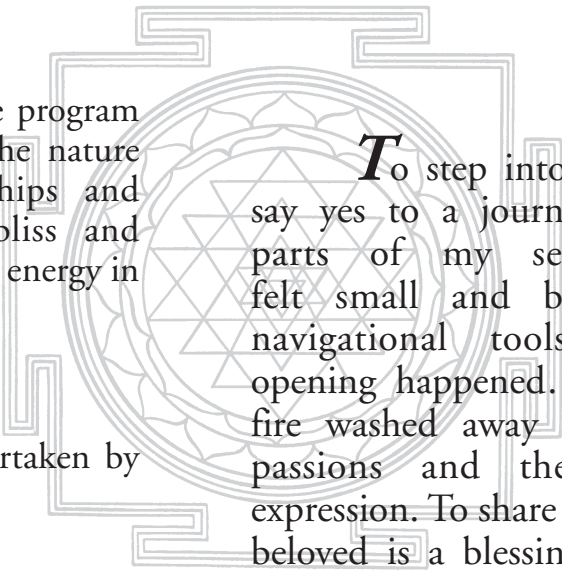

## *Do I need a partner?*

This program can be undertaken by single persons or couples.

## *How do I learn?*

Group instruction is given with individual practice being necessary to master the skills taught. The areas covered include:

- ⦿ Healing past impediments to Tantric practice.
- ⦿ Understanding sexuality as an energy event.
- ⦿ Meditations to improve the flow of Kundalini along the spine.
- ⦿ Ancient Tantric practice never written down - only passed on by word of mouth.
- ⦿ Initiations into new levels of Tantric experience.
- ⦿ The spiritual energies available through Tantra.

**T**o step into Tantra has been to say yes to a journey...of seeing those parts of my sexuality that have felt small and bound...to use the navigational tools...and watch, as opening happened...tears, laughter and fire washed away the old and awoke passions and the fullness of my expression. To share this journey with my beloved is a blessing. It's taught me to trust the cycles of relating...to let go...and allow the beauty that wants to flower, in this, a most divine dance.

**T**antra with Daricha and Rachana has put me in touch with a deep sensuous aliveness. It turned me on to an inner passion and awareness of my sexuality. The course was fun and enlightening and a valuable exploratory journey, into an era untouched by our western culture. The goddess is now dancing and loving it.
